

GOLBONG Operation Software

Key Vaule Highlight

- All in one system

The operator can use operation software to record the live stream from camera, decode video feed for real time monitor, search footage for review.

- Motion recording and playback

The operation software can start record the video stream when the motion is detected by the camera. The operator doesn't need to playback all the footage, but only interests section.

- Manage IP camera, NVR/DVR

The operator can manage golbong IP camera, NVR, DVR with operation software.

- Onvif Profile-S

The users can use operation software to monitor with 3rd-party ip camera which support Onvif protocols.

Typical Application

Retail
Convenience Store
Headquarter office
Workshop
Logistics
Home
and others
